Subject: Opinion Regarding Microsoft Settlement

Greetings,

I am expressing this opinion as an individual and not speaking on behalf of my employer or anyone else.

I am of the opinion that you have not done enough to stop & reverse the monopolistic behavior of Microsoft. The recent changes in licensing along with the invasive nature of the Passport feature of Windows XP are examples. Also, notice the high prices of Windows XP and Office XP. These are exorbitant and would not exist if there was competition.

This company has proved that it cannot be trusted and it appears to me that your settlement shows that the DOJ is willing to look the other way and grant Microsoft a de facto license to continue along the path it wants. This is a bad deal for the public and holds us hostage.

Thanks for providing me the opportunity to express my opinion.

Regards,
